

Valmet Automotive - Join us on the frontline of automotive industry!

Valmet Automotive is an international, experienced provider of automotive engineering, vehicle manufacturing, convertible roof systems and related business services. Our areas of expertise are premium cars, convertibles and electric vehicles. We have made our name with top quality and our references are world-class. We employ over 1600 professionals in Finland, Germany, Poland, Sweden and the USA.

If you are interested in making an international career on the frontline of automotive industry, we can offer you several open positions in Germany, Finland and the USA. We also have a constant need for product development, quality and production technology engineers to work in our current and future projects. Open applications are always welcome.

We are looking for **automotive engineering professionals** with suitable education (MSc or BSc of Engineering, Mechanics etc.) complemented with experience in project work.

Valmet Automotive's Roof systems business line is currently looking for R&D engineers for Osnabrück, Germany. For further information on these positions, please contact gregor.remme@valmet-automotive.com . You may email your application to osn.recruiting@valmet-automotive.com .

Valmet Automotive's Engineering and Manufacturing business lines are now looking for Project and Design Engineers for Finland and the USA. To see our currently open positions, please visit: <https://careers.fi/metso/careers.cgi>

Should you not find a position of your interest, please send an open application at http://careers.fi/metso/careers.cgi?action=view&job_id=3791&lang=uk

Valmet Automotive is strategically expanding its automotive service offering and world-wide presence. In this, our greatest asset is the personnel. We are always interested in new talent. Please, do not hesitate to contact us or send your application at any time.
