**Stellenbeschreibung**

**NOTICE: This is one of the vacancies which are published in preparation of a recruitment event for the Stuttgart area. Selected applicants will be invited for interviews in Stuttgart (December 06 to 08, 2011). Travel and accommodation expenses will be paid from Barcelona (special flight) to Stuttgart and back.**

**Please only apply for this open position if your Spanish language is fluent and your German language skills match at least basic level and refer to number 10000-1075816178-S.**

We are, at the location Stuttgart, a successful engineering partner to the automotive industry for well-known Automotive companies and automotive suppliers. We provide solutions for our customers in planning, development, construction, simulation/calculation and project management.

To support our team in Schönaich and our team with our client in Stuttgart, we seek creative employees (m / f), provide convincing colleagues and customers through social and professional skills.

Development Engineers (m / f)  
Design / Testing / Projectmanagement

your responsibilities

Accompany new products from concept to SOP.

You create self-concepts, from idea generation through to detailing.

You are responsible for the planning, implementation and supervision of construction, experiments or the complete project process.

They work deals with the most advanced simulation and development tools and work closely with our customers.

your profile

Study of Automotive Engineering, Mechanical Engineering, Mechatronics, Electrical, ...

Good knowledge of CAD (CATIA, Pro-E; Unigraphics und/oder SolidDesigner) and / or good knowledge of construction / project or experiment.

In any case, you have a great interest in the development activities and are open for new ideas and technologies.

Flexibility, poise, teamwork and good English and German language skills, we assume.

We also like to give qualified students a chance to familiarize themselves.

Graduates and young professionals, we offer exciting career opportunities.
