+++ +++ +++ +++ +++

We are an international group committed to the design and production of hi-tech systems and components for the automotive sector, headquartered in Italy (Corbetta, Milan).

With a turnover of € 4.5 billion in 2009, more than 30.000 employees, 77 production units, 11 R&D Centres and 26 Application Centres, the Group has a presence in 18 countries (Italy, France, Germany, Spain, Poland, Czech Republic, Russia, Slovakia, Turkey, the United States, Mexico, Brazil, Argentina, China, Japan, India, Malaysia and South Africa).

We supplies all leading car makers in Europe, North and South America, and Asia.

For our German office in Rüsselsheim we are seeking an:

Application Engineer (m/w) AMT

The Application Engineer is part of the international development team for automated manual transmissions and interacts both with development/project engineers in-house and on the customer side.

The candidate will be the local responsible engineer for application and validation of the system functionality in the vehicle.

tasks:

- Application of software parameters within the Transmission Control Unit
- Development of new software strategies
- Validation of system functionality in the car and on the testbench
- Analyzing and drive resolution of identified problems
- supporting the customer development team on-site

Required skills:

- Academic degree in mechanical engineering / mechatronics

- Minimum 5 years of experience in automotive development
- Experience in working with INCA
- Background in application of automated manual transmissions
- Willingness for European business trips
- Strong customer orientation
- Team player

Preferred skills:

- CANalyzer
- MATLAB
