Stellenbeschreibung

NOTICE: This is one of the vacancies which are published in preparation of a recruitment event for the Stuttgart area. Selected applicants will be invited for interviews in Stuttgart (December 06 to 08, 2011). Travel and accommodation expenses will be paid from Barcelona (special flight) to Stuttgart and back.

Please only apply for this open position if your Spanish language is fluent and your German language skills match at least basic level and refer to number 10000-1075403297-S.

.....

Our company is situated in Schorndorf, the home of Gottlieb Daimler, near Stuttgart in the south of Germany. We were founded in 1949 as a toolmaker. Today with 400 employees in Germany and round about 700 employees worldwide we are a renowned manufacturer of hot chamber and cold chamber die casting machines. Additionally we are still a specialized toolmaker. Another big business segment is the support of our customers with service, maintenance and assistance to the production process. Our customers are successful for example in the automotive, furniture and electronic industry.

For our engineering and development department we are looking for electro engineers (m/f). Your assignments for example would be:

- Design of Feedforward control, electric control cabinet and the electric installation of the machines
- Design of the safety engineering in accordance to the current machine guidelines

What are we looking for:

- A master or a bachelor degree in electrical engineering
- Knowledge in Eplan P8 and Promis
- Knowledge of bus systems
- English fluently
- Previous working experience in this field would be helpful but is not necessary

Conditions:

- Yearly income between € 42.000,00 and 66.000,00, depending on the experience
- Additional monthly allowance for the rent of a room/flat in the first year, € 400

Are you interested? Are you available immediately? We are looking forward to your application.
