

UX Design (m/f/d)

You contribute an important part to the user experience by building up a fresh Angular frontend together with your colleagues. You will accompany the entire process from the creation of user requirements and the setting of user interface prototypes to the final design of interaction processes across all user touch points. During the various development phases, you use usability tests to ensure the quality of the GUI with the aim of offering our customers optimum user guidance and conversion. As the interface between UX design and frontend development, your eye for detail is needed to consider the most diverse eventualities.

In a nutshell

- A motivated team in the heart of Kreuzberg with customers from Los Angeles to Tokyo and Helsinki to Cape Town
- A friendly atmosphere, a high level of responsibility and creative freedom
- Flexible working times with a digital time account and the option of working from home
- Flat hierarchies, a lot of room for your personal development, and an office dog
- Fresh fruit, coffee and experienced table football opponents

Your profile

- You have a degree in Human Interaction Design, Interface Design or related Design areas, or you are a career-changer with a background in Development
- You have at least two years' work experience as a UX Designer, Information Architect, Front-end Developer with a focus on design, or a similar role
- You have a talent for communicating your ideas effectively
- You can estimate development effort and know how to implement some front-end components yourself – HTML, CSS, JavaScript and angular 2.4+ are not uncharted territory for you
- You have already worked with prototyping tools (e.g. InVision)
- You can use your German and English skills with colleagues and customers – you have very good knowledge of at least one of these languages

Interested? Then get in touch with us!

Click on “Apply now” and send us your application (cover letter, CV, certificates) as a PDF file along with your salary expectations and earliest starting date.

If you have any questions about the position or would like any further information, please feel free to contact our HR Manager Christoph at jobs@plunet.com. We look forward to meeting you!

Next steps

- We will send a confirmation that we have received your application
- Christoph will get in touch with you via e-mail to discuss any further points, and will arrange a potential (Skype) interview
- Because you made a great professional and personal impression, we also want to meet you at our office in Berlin
- You will receive feedback from us shortly afterwards
