

Welcome to Germany!

ZAV – Internationaler Personalservice Baden-Württemberg

GD Bildung und Kultur
Programm für lebenslanges Lernen

Bundesagentur für Arbeit

Zentrale Auslands-
und Fachvermittlung (ZAV)

The Zentrale Auslands- und Fachvermittlung (International Placement Office – ZAV) is a special service offered by the German Federal Employment Agency in collaboration with the EURES Netzwerk (network). The ZAV recruits and places job-seekers who are interested in employment in Baden-Württemberg. The service is, of course, completely free-of-charge for you.

The Federal state of Baden-Württemberg, located in the south-west of Germany, is one of the most competitive and economically-strong regions in Europe. In addition to many large internationally-active companies, there are also many medium-sized and smaller companies, which are a vital and indispensable pillar of our economy. The job market is stable and the need for skilled workers is great.

Our company is a global, leading full-service provider of online financial applications. The company from Karlsruhe combines expertise in consultation, creation and technology – it supports its customers with provider and data management, as well as with the conception, design, creation, development and hosting of innovative online solutions. In more than 25 countries, banks, online brokers, media portals, investment companies and financial service providers rely on our online consultation services and solutions for the financial markets.

For our headquarters in Karlsruhe, we are looking for motivated colleagues (m/f), who are strong in development, dedicated and have convincing ideas, to start as soon as possible.

Senior Software Developer.NET (m/f) for Product Development

Your Tasks & Responsibilities:

- New and further development of the pivotal core products, with a focus on front-end/middleware, for use in web-based solutions for the financial market environment
- Product development and technical conception – from implementation to support
- Realisation of the required tasks with a focus on scalability, simplicity and quality
- Ensure the quality of the products by taking appropriate measures, e.g. test-driven development, pair programming, intensive reviews
- Documentation of the product development and related information, as well as employee training on the products
- Advising the in-house project teams on the realisation of customer projects with the corresponding products
