

JavaScript Web Developer

We, the WEBTEAM LEIPZIG, are looking for support in the area of JavaScript web development as soon as possible.

Your tasks:

- requirements analysis, conception, cost assessment, prototypical development
- preparation of comprehensive solutions as part of a team
- development and configuration of business applications
- ensuring the quality of new and existing projects
- close collaboration with our colleagues and partners
- quick assumption of responsibility

Your profile

- completed university degree or at least 3 years of professional experience
- very good knowledge in JavaScript (e.g. ES5/ES6) or TypeScript, Node.js
- profound knowledge in a popular JavaScript framework, such as React.js or Angular.js
- knowledge and application of current development methods (e.g. DDD, TDD)
- experience in container virtualisation, continuous integration, and deployment
- analytical, structured, thorough, and results-oriented approach to work with high quality requirements, as well as high motivation and commitment
- Knowledge of our Toolchain advantageous (key words: WebStorm/PHPStorm, Gulp/Grunt, SASS, Node.js, npm, Github/Gitflow, Scrutinizer, JIRA, Confluence)
- good command of written and spoken English
- high commitment and a team player

Our offer

- challenging tasks in demanding, long-term projects
- an active and valued role in our expert-level development team (with a Joel Test Score of 10/12)
- very good personal and professional development opportunities in a growth-oriented company
- a developer-friendly working atmosphere that is quiet and low in disruptions
- an open, family-friendly and modern work environment
- permanent full-time position
- conveniently located in Zentrum Ost in Leipzig
- free drinks
