

Puesto de trabajo: **ELECTROMECAÁNICO/A DE AUTOMÓVILES** (Ref. 56785885)

Nº de puestos: 1

Lugar: **Bélgica (Schoten)**

Fecha: 27/11/2017

VAN LOOCK MOTOREN is looking for an Employee test mode

Perfil del candidato:

- Nacionalidad de un país de la Unión Europea.
- The candidate must be in possession of a bachelor's degree in electricity or electromechanics or by experience.
- Buen nivel de inglés
- We expect the candidate to be a technician pure song. In addition, he has a service-oriented attitude.
- You are instructive and flexible. You are interested in electrical drives and controllers.

Funciones

- Testing of electric motors, alternators, motor reducers and drives.
- Assess what should happen with the products received. Before the product is delivered, you determine (by testing) whether the product meets our requirements. In the long term, it is expected that you will also run an electric drive on site and solve any problem.
- Consult with the other departments and work with continuous improvement of the internal process.

Condiciones laborales:

- Contrato indefinido, jornada completa.

Interested candidates please send CV in english to Bob Van Look
