

# PROGRAM MANAGER SPACE PROJECTS

## **Company**

OIP in Oudenaarde, Belgium, develops -electronic solutions for Space and Defense.

## **Job description**

As Program Manager Space, you are a key person in our organization. You manage and supervise our high technological programs in the commercial, operational and quality area, according to the contractual agreements on specifications, planning and budgets.

You will act as the key figure and first contact person for the customer, for all aspects relating to the realization and follow-up of the program.

You will draw up, follow-up and adjust the global project plan, as regards both content and budget, in coordination with sales, operations, engineering, purchase,

For our space projects, we are currently looking for a Program Manager.

## **Place of job**

Westerring 21 9700 OUDENAARDE, Flanders Region, Belgium

## **Profile**

Higher technical training at master level with strong technical commercial experience

Experience in managing complex projects (in an international context) is mandatory.

Knowledge of optical systems is an asset, as well as experience in space projects.

You represent OIP at the highest level. This assumes a strong personality, power of persuasion and excellent communication skills in English.

You are flexible and ready to stay abroad on a regular basis, if required by the program you are responsible for.

## **Working conditions**

We offer a permanent contract in a high-technological environment with challenging projects.

Market-conform salary with interesting extra-legal advantages

## **How to apply**

How to apply? Please send your cv and motivation letter to [jobs@oip.be](mailto:jobs@oip.be)
