

Native English Assistant in Montessori School

Girona, Spain

The Montessori Method of education is a child-centered educational approach based on scientific observations of children from birth to adulthood. It has been used for over 100 years in many parts of the world. It is a view of the child as one who is naturally eager for knowledge and capable of initiating learning in a supportive, thoughtfully prepared learning environment. It is an approach that values the human spirit and the development of the whole child—physical, social, emotional, cognitive.
