

National Referencenumber: 8696647

As an international company within the lighting industry XAL connects innovative design with the latest technology. Our lighting solutions are just as sustainable as aesthetic and premium functional - a concept which is successful worldwide. XAL has subsidiaries in the US, Europe and Asia as well as a global partner network. Currently, our team consists of about 1200 employees. We are currently looking for support for our office in Barcelona.

1 LIGHTING DESIGNER (m/w) - Barcelona

- Your responsibilities:
 - Bespoke design to client specifications, following the customer lighting requirements
 - Working with AutoCAD, Dialux/Dialux Evo/Relux
 - Ensuring quality measures and general lighting standards are met
 - Working independently in multiple projects simultaneously to tight deadlines
 - Working in a tech-team on international projects with global key accounts
 - Draw up lighting plans in AutoCAD
 - Prepare relevant technical schedules of luminaries
 - Attend meetings and visit sites if necessary
 - Working closely to colleagues and supporting them when needed
- Your profile:
 - Successfully completed (higher) education in technical lighting design, electrical engineering etc.
 - Extensive working experience as Lighting Designer
 - Good knowledge of Dialux Evo/Relux, Photoshop will be a bonus
 - Passionate about lighting, architecture and design
 - Good command of English and Spanish
 - Good communication skills and eager to learn
 - Well-organized and able to work well under pressure to meet deadlines
 - Self-motivated, dependable and happy to work in a team
- Our proposition:

We offer an exciting, fast paced environment in an expanding, international company. The position is geared towards a long-term working relationship. Furthermore, you can expect to take the following benefits:

 - Performance-related pay
 - Possible International Career advancement
 - Professional and personal development in the XAL Academy
 - Social events: teambuilding, events
