

## SEMITRAILER MECHANICS FOR SPANISH COMPANY

Lecitrailer started its activity in 1990 and is market leader since over 10 years with a market share above 30%, being one of European top brands. Our Group has over 400 employees and premises over 380.000m

We are now seeking for 5 semi trailer mechanics with at least 5 years of previous experience, vocational training in electromechanics and knowledge on the following fields:

Mechanical elements of the semi-trailer, electricity and pneumatic of industrial automotive. Able to use the following tools: drill, pneumatic gun, hand tools in general, hydraulic jacks, crane bridge, frenometer, ABS diagnosis devices, brake riveting tool, brake clamps sander, laser aligned machine.

The employer offers long term contract, full time position with 3 shifts (morning, evening and nights)

Only basic Spanish language is required. The employer is willing to hire Spain resident professionals and also citizens from other European countries. In that case the employer supports in finding accommodation.

If you meet all requirements please send your CV in Spanish or English to [rrhh@lecitrailer.es](mailto:rrhh@lecitrailer.es)
