Enterprise:

Full postal address

Terborchstraat 16

NL 8011 GG

Zwolle, The Netherlands

Short description of company

Computheek offers different IT solutions, for example in patient logistics for hospitals. Also we participate in a group of ten IT companies to recruit and work in human capital for our companies.

The Company is a provider of solutions in the field of self-service and hospitality. The Company automates the work and information provision around customer processes and its markets contain municipalities, healthcare and retail companies.

VACANCY DETAILS

The Company is looking for experienced (at least 3 years) .NET Developers who are driven to build good solutions, to maintain and to come up with new solutions. The Company is now mainly scaling up our applications where we work in VB.NET/C# in both winforms and web applications.

As Software Developer .NET must have knowledge of:

- .NET (C # and VB.NET);
- Microsoft SQL Server;
- Microsoft WPF, Winforms, WCF and MVC;
- Affinity with Angular or similar frameworks.
- Unit Testing
- Git.

Full job description:

The candidates must be used to be working in a team and they must have completed a science study.

The Company uses many new techniques and methods. This means that the developer gets a wide range of tasks, from devops to helping the customer with implementation.

The work is therefore very varied. To co-ordinate it is used Agile / SCRUM.

REQUIREMENTS

Good level of English and are ready for a career in The Netherlands.

Highschool or university

WORKING CONDITIONS:

Salary established per month and accordingly to experience, for graduates the wages are from:

€ 2600€ gross Minimum

€ 3000,- gross

€ 4750,-Gross Maximum

-

Job location: Zwolle; Netherlands

Starting date: ASAP

Type of contract:

Initial contract for half a year or a year. According to the wishes of the candidate. After this it's possible to go to a permanent contract if both parties agree.

Full time
