

Mould Makers

Number of Posts: 10

Contract Type: Indefinite

Job description:

The selected candidates will be responsible to construct, repair and maintain moulds by using the appropriate designs and machinery. The main tasks, amongst others, include:

- Manual work on plastic injection moulds.
- CAD/CAM programming, machining of electrodes, CNC-milling, lathe turning, spark & wire erosion or manual milling / drilling.
- To evaluate faults and correct accordingly.
- To ensure that machines and/or equipment function properly.
- To ensure that the workplace, machinery, tools and equipment within the department are maintained clean and organized.

Requirements:

The ideal candidate should have:

- A minimum BTEC National Diploma or OTD certificate in Mechanical Engineering or equivalent.
- Thorough knowledge of plastic injection moulds.
- A sound knowledge of machining applications such as milling, drilling, bench fitting and surface grinding.
- Basic knowledge in CNC machining.
- Good organizational skills with ability to multitask.
- A flexible approach towards changing priorities.
- Capability of communicating with all department employees as well as superiors.
- Fluent in English/Maltese

Any other information:

For any candidates that have qualifications from another EU country, you will need to gain the equivalence of these in Malta. You can obtain this from an ENIC NARIC centre in your country or via the ENIC NARIC in Malta (MQRIC). MQRIC accept applications by email on qric.malta@gov.mt. Should MQRIC request clarification or further information regarding an application, they will contact you for such clarification and information. A receipt by email will be issued for all valid submissions. MQRIC expect all clients to submit their applications from their personal email directly to them. In the rare event that an applicant has no personal email, a scanned letter of authorization is requested to verify that email being sent by third user on their behalf is under authorization. More information can be found at this link <https://ncfhe.gov.mt/en/services/Pages/All%20Services/mqric.aspx>.

How to apply:

Please submit your CV in English and quote the vacancy title in the covering email. Address this email to eures.recruitment.jobsplus@gov.mt

With copy to eures.grupomixto@sepe.es

Very important: CVs are to be submitted **in English, Ref. Mould Makers, ref. 328429**
