

# Job Vacancy

## Especialista en ortodoncia con inglés.

### Tannhelsesenteret Lørenskog As. Lørnskog (Noruega)

[www.tannhelsesenter.no](http://www.tannhelsesenter.no)

#### Description of the company

The clinic in Sogndal opened March 2013. We offer specialist treatment in orthodontics, oral surgery, periodontics, endodontics and dental sleep medicine. The orthodontic activity has grown regularly. We are now seeking a full-time position for a specialist. The clinic also has a full-time dental secretary and a dental hygienist has been trained to provide clinical patient treatment and works 60% of the time in collaboration with the orthodontist. The turnover is good. The clinic is a branch of Tannhelsesenteret Lørenskog, one of the major dental clinics in the Oslo region.

After merging 3 smaller municipalities, the new Sogndal will in two years have 12.000 inhabitants and 2000 students. Sogndal is part of a large region and our clinic provides the only specialist offer in the entire region. The clinic is located in the centre of the community, alongside a public dental clinic.

Flight time from Gardermoen (Oslo) is about 45 minutes. The community lies by the shore of Sognefjorden, Norway's longest fjord. The nearest large city is Bergen, connected by plane, boat and bus. Sogndal has a fantastic natural environment and is very close to glaciers and mountains!

We are seeking a specialist in orthodontics for this full-time position in Sogndal, but we can also consider a solution in which two orthodontists travel back and forth to the clinic. Housing prices are extremely low in comparison to prices in the bigger cities.

Start date: We are flexible, but we would like to have a new provider in place by 1 October 2018

We offer to pay for travel and accommodation for interested applicants to visit Sogndal.
