SECURITY TECHNICIAN

Bravida is a leading multi-technical service provider in the Nordics, with more than 10 000 employees. Bravida delivers specialist services as well as complete electrical, heating and plumbing, and HVAC solutions, offering everything from design and project planning to installation, operation and maintenance. Bravida is represented in around 150 locations in Sweden, Norway, Denmark and Finland. www.bravida.se/en/ Number of employees: 10 000

Bravida continues to grow and as one of the Nordic countries leading technical contractors, we create commitment and results as a team. Bravida in Skövde currently has several exciting larger projects in progress and we are looking for you who want to become part of our team. Are you ready for your next challenge? Welcome with your application!

Work assignments

Listed Bravida makes great progress – The office in the city of Eskilstuna expands with many new and exciting projects! We therefore need to expand our staffing strength with more committed and motivated employees. Do you want to work with technical problem solving and daily meetings with Bravida's customers? Take the challenge and apply to the service at Bravida in Eskilstuna today!

Your work assignments

As a security engineer, you are mainly working with preventive and malfunctioning service and maintenance work, as well as installation and deployment of both existing and new security facilities. You are responsible for the technical execution of the assignment. The work is done both independently and in groups, and you are expected to take a great responsibility. You will have a wide network of contacts with clients, project managers, controllers and suppliers. Always with the goal of having the market's most satisfied customers.

Why

Bravida?

Bravida in Skövde includes departments who projects installation of electricity, plumbing and heating and ventilation. You will be part of a team with great competence and long experience. Bravida has been ranked as one of Sweden's best employers for several years in a row. We are therefore one of the best placed contractors in the construction industry - something we are very proud of! At Bravida we work in teams and we achieve results together. A good working environment is the key to our success. As a Bravida employee, you receive a number of benefits such as healthcare benefits and preferential insurances.

We offer you

Do you want to work with property's life-giving features, such as energy, heat, water and air? Then at Bravida we can offer you a stimulating workplace with exciting work tasks. Through efficient and environmentally-conscious installations and entertaining services, Bravida provides buildings with life. As part of Bravida you have the opportunity to grow, we are prepared to invest in you.

Working as a security technician is a stimulating and important work. We work with fire alarms, burglar alarms, passages, camera surveillance etc. You become part of a well-established working group who strives for quality and satisfied customers. Bravida gives you the opportunity to get even better on what you already are good at! You work with talented employees while having fun at work.

Who are you?

We are looking for you who have a technical education and good experience from the profession. As a security engineer, we would like you to have experience from the industry and good computer skills, as our systems are computer and network-based. It is highly appreciated if you have experience in teleregistration and fire protection. As our work is conducted in a computer based environment, we want you to have good computer skills. Driving license is a requirement.

As a person, you are a team player who performs your work in a careful and quality manner. You are driven, have a forward spirit and a solid technical interest. You belong to a work team but will also perform a lot of work independently, which requires a high level of responsibility. As work is done close to the customer, it is important that you are service-oriented and enjoy working customer-oriented.
