GENERAL REGISTERED NURSES FOR KAROLINSKA HOSPITAL

Karolinska University Hospital is today one of Europe's leading university hospitals with about 16,000 employees. In the Stockholm region we have a special responsibility for highly specialized care and together with the Karolinska Institute we carry out education and world leading research in a number of different areas. As a university hospital our main mission is research, education and the development of health and healthcare. An integrated view of care, research and education characterizes the organization as well as the control and monitoring of our operations.

Arbetsuppgifter/Job description:

We are looking for people who:

- are service minded and recognize that good care is essential
- are interested in the development of care and person-centered care
- want to be part of a team
- want to take part in influencing our activities towards better care processes

Professional training, experience, language skills etc.: registered nurse in general care in an EU/EEA country. Minimum two years experience.

Arbetsort/Place of work: Stockholm
