

Welcome to Germany!

ZAV – Internationaler Personalservice Baden-Württemberg

GD Bildung und Kultur
Programm für lebenslanges Lernen

Bundesagentur für Arbeit

Zentrale Auslands-
und Fachvermittlung (ZAV)

The Zentrale Auslands- und Fachvermittlung (International Placement Office – ZAV) is a special service offered by the German Federal Employment Agency in collaboration with the Netzwerk (network) EURES. The ZAV recruits and places job-seekers who are interested in employment in Baden-Württemberg. Our service is, naturally, free-of-charge for you.

The federal state of Baden-Württemberg, located in the south-west of Germany, is one of the most competitive and economically-strong regions in Europe. In addition to many large international companies, there are also many medium-sized and smaller companies, which form a vital and indispensable pillar of our economy. The job market is stable and the need for skilled workers is great.

As a software and consulting company, we are one of the strongest ORACLE partners in Germany, with more than 80 employees. We have open positions at our locations in Karlsruhe, Munich, Pfäffikon (Switzerland) and Timisoara (Romania), as well as at our Germany-wide project sites, such as Nuremberg or Stuttgart.

Our core technologies come from ORACLE, where we use products from the areas of databases, middleware, business intelligence and cloud. We develop individual solutions, realise the integration of different systems, modernise existing applications, optimise business and IT processes, and create enormous potential from existing data for you. We also ensure that your solution is properly maintained and operated. Thanks to our specialisation, our expertise and our certifications, we not only offer the best consultants, but also enable a reliable and fast project implementation. In addition, you can receive training, coaching and training on ORACLE products from us. If you are looking for an expert, reliable and effective partner, we are your first choice.

To strengthen our team, we are looking for a

Software Developer Consultant (m/w) JAVA/ JAVA EE

to start as soon as possible

Zentrale Auslands- und Fachvermittlung (ZAV) · Bahnhofstraße 29 · 70372 Stuttgart · Germany

Tel.: + 49 (0)711/920 3282 · Email: zav-ips-baden-wuerttemberg@arbeitsagentur.de

Welcome to Germany!

ZAV – Internationaler Personalservice Baden-Württemberg

GD Bildung und Kultur
Programm für lebenslanges Lernen

Bundesagentur für Arbeit

Zentrale Auslands-
und Fachvermittlung (ZAV)

This is what awaits you:

- Specialised and technical conception
- Implementation of web-based applications
- Integration of software components developed in-house into ORACLE Middleware products
- Advising and supporting our clients in the context of mixed consulting and development projects
- Technologies: Java EE, ORACLE ADF, ORACLE WebCenter, ORACLE SOA, ORACLE WebLogic, SQL
- Project-specific application at the customer's premises

This is what you can offer us:

- Know-how in Java/Java EE software development
- Knowledge of web-development
- Experience of Java EE application servers
- Experience of agile procedures/approaches
- Very good knowledge of German and English, both spoken and written

This is what we can offer you:

- Technically-demanding projects with well-known, large customers
- Fast decision-making processes, uncomplicated and individual agreements, small and pleasant teams
- Individual further development measures to become an outstanding ORACLE expert
- Participation in conferences and promotion of community work
- Home-office, flexible working hours, attractive basic salary plus bonuses
- Fun, enthusiasm, transparency and activities at various events
- Quickly take over responsibility and development opportunities in a stable and entrepreneurial company which has a strong name on the market
- We live ORACLE – this is why you only use first-class and up-to-date technologies when you work for us. We are very committed to the ORACLE community. This is your chance to contribute and get involved in specialist conferences and community events

The Zentrale Auslands- und Fachvermittlung (International Placement Office – ZAV) is a special service offered by the German Federal Employment Agency in collaboration with the Netzwerk (network) EURES. The ZAV recruits and places job-seekers who are interested in employment in Baden-Württemberg. Our service is, naturally, free-of-charge for you.

The federal state of Baden-Württemberg, located in the south-west of Germany, is one of the most competitive and economically-strong regions in Europe. In addition to many large international companies, there are also many medium-sized and smaller companies, which form a vital and indispensable pillar of our economy. The job market is stable and the need for skilled workers is great.

Our company has been a German manufacturer of IP-based software solutions for video-analysis and video-management since 1965, we specialise in technical solutions for alarm and security systems.

To strengthen our developer team, we are looking for a

Software-Developer Front-End of Embedded Systems (m/f)

in our **IPS Intelligent Video Analytics business unit** in Munich, Germany

Are you ready to help shape the next generation of software-based video surveillance systems? When it comes to quality, would you like it to be up to you?

Would you like to work independently, but in a small, dynamic team?

Our video-analysis software products run as embedded systems in smart cameras; they are service-products and do not contain a GUI. To configure and monitor them, external front-ends are created based on web technologies – these are Rich clients and run completely autonomously.

The work places the highest demands on your professional expertise, your quality-awareness and your reliability. After all, it is literally about the security of our customers. Are you communicative and quick-witted? Then you are at the right place with us!

Welcome to Germany!

ZAV – Internationaler Personalservice Baden-Württemberg

GD Bildung und Kultur
Programm für lebenslanges Lernen

Bundesagentur für Arbeit

Zentrale Auslands-
und Fachvermittlung (ZAV)

Your Responsibilities:

- Independent design of complex front-end programs
- Independent development with the aid of web technologies and the use of standardised libraries and tool sets
- Validation and optimisation of the software you develop and provision of the technical documentation

Your Profile:

- Completed university degree in computer science (or equivalent)
- Experience in the development of Rich-Clients with the aid of web-applications
- Very good knowledge of JavaScript
- Very good knowledge of IP-networks and the current browsers
- Very good knowledge of the necessary Debugging-Tools (e.g. Wireshark)
- Good knowledge of Tool-Chain and Libraries, e.g. jQuery, AJAX, etc.
- Fluent German and good English skills both spoken and written

Our highly interesting work on the pulse of the time requires constant further development and advanced training. A suitable salary, extensive social benefits and a group management, which not only calls employees 'the employees', but actually includes them in the further development of the company, complete the picture.

The ZAV recruits and places job-seekers who are interested in employment in Baden-Württemberg. Our service is, naturally, free-of-charge for you.

The federal state of Baden-Württemberg, located in the south-west of Germany, is one of the most competitive and economically-strong regions in Europe. In addition to many large international companies, there are also many medium-sized and smaller companies, which are vital and indispensable for our economy. The job market is stable and the need for skilled workers is great.

We develop software and apps for data collection, visualisation and networking, with a focus on the latest topics, such as Industry 4.0, the Internet of Things, digitalisation and MES - not tomorrow, but today and for the future. Another focus is on our own JIS (Just-in-Sequence) solution, which is used by numerous international automotive customers.

To strengthen our team, we are looking for a

Software Developer – Customer Projects and Software Framework (m/f)

What distinguishes us:

- Flexibility, agility and innovation power
- Cloud, apps and web as future themes
- Scalable and viable for the future
- Partnerships with global players
- We work with innovative technologies, such as Python, Java Script and HTML5

How we find challenges which developers with vision need to present with impressive arguments!

- Completed university degree in computer science or engineering sciences with a focus on software development
- Experience with object-orientated programming languages
- Knowledge of dealing with databases (SQL, also noSQL would be good)
- Experience in GUI-development (Rich-clients, as well as Web-UIs)
- Good knowledge of English
- An innovative and experienced person who is looking for more than just a programming job and has fun dealing with customers
- Long-term professional experience is not a must for us

Information for Foreign Applicants:

- Good knowledge of English is necessary
- Knowledge of German, Spanish or Portuguese is useful, but not absolutely necessary
- The IHK Reutlingen will assist you with everyday problems, such as searching for accommodation, banking and insurance questions, as well as government office visits
- Establishing a personal contact is possible via Skype
- A personal contact person (mentor) is available to you in the company. The professional induction/training takes place in the team.

Apart from numerous large companies operating internationally, it is the many medium-sized and smaller companies that constitute a supporting and indispensable pillar of our economy. The labour market is stable and there is a great need for skilled workers.

Our company develops software projects across a wide variety of fields - ranging from social pedagogy to semiconductor fabrication. Whatever the project, we start by accumulating in-depth knowledge of the field at hand. We then apply the best available technologies and techniques we can find. Currently this means that our projects employ functional programming, in languages such as Scala, Clojure, Haskell, Erlang, Elixir, F#, Scala, OCaml, or Swift. We work in small, closely-knit teams.

We are looking for a:

Software Developer (m/f)

To join our team in Tübingen, Germany.

We are looking for somebody with the following attributes:

- experience and/or training in software development, no matter the programming language
- interest in functional programming (we can provide on-the-job training)
- a wish to learn something new every day
- delight in always giving your best and to get better every day
- willingness to operate in a team that collectively decides what's best in project and to put those decisions into practice
- Highly proficient in English **or** good spoken and written German
