

Puesto de trabajo: INGENIERO/A INDUSTRIAL (Mechanical designer) (Ref 55636258)

Nº de puestos: 1

Lugar: BELGICA (BEVEREN-AAN-DEN-IJZER)

Fecha: 3/3/2017

ADECCO INTERNATIONAL MOBILITY de Bélgica busca INGENIERO INDUSTRIAL (Mechanical Designer)

Perfil del candidato:

- Nacionalidad de un país de la Unión Europea.
- Degree of an industrial engineer
- At least 5 years of experience in a similar position
- Experience with ProEngineer or Creo
- Good knowledge of Hydraulics and Pneumatics
- You are used to work with mechanical parts , reading plans (welding symbols) , schemes , etc.
- Good English Knowledge (French is an asset).

Funciones:

Mechanical designers work on the design and development of machines for the wood industry. During this process you review specifications and other data to develop mechanical layouts .You have working knowledge of mechanical and technical parts as well as computer-aided design software (CAD), such as ProEngineer or Creo. You also have to calculate measurements, keep focusing on Quality, verifying tolerances, identifying legal aspects. You create a 3D model and deliver all details for production. You deliver the required DFX-files. If the model is approved, designers may then finalize designs and sent prints to the production department. You assist the assembly and guarantee them support where 's necessary .

Condiciones laborales:

- Contrato temporal con opción a indefinido.
- full time position of 38 hours / week (monday till friday)
- Salary: can be discussed (Attractive !)
- Meal vouchers : €2,23 : day
- Transport refund
- End-of-the-year bonus

Interested candidates please send CV to international.mobility@adecco.be
