

Software developers in FINLAND

¿Has pensado alguna vez en trabajar en Finlandia?
¿Conoces las Islas Aland?

Paf is looking for:

Finland can be your opportunity if you as a full stack developer you enjoy the variety of working with all parts of software development. You love working on the presentation layer but doing backend services is exciting as well. Occasionally you modify the database and when needed you improve the infrastructure

What's in it for you?

You will join a cross-functional development team in our office in **central Helsinki**. We work in an agile process and collaborate actively. You will get to work with the latest in micro service and container technologies. You will get a chance to work on all parts of the technology stack. You will learn new things and grow as a professional. And you will get to work on the top-prio projects, so your work will certainly matter for the company's future success. Ah, and you will also get paid and a fair amount of benefits.

Of course, we don't expect you to be an expert in everything. You are probably more comfortable in some areas than in others. But you are prepared to take on any task, because you know that your skilled colleagues can help you out when it gets challenging. And besides, what you don't already know you are eager to learn.

As a true professional you realize the importance of quality and you embrace test automation and continuous integration. Yet, you strive to deliver on schedule and you don't consider your work truly Done until it's running in production. And when it's out, you want to follow-up and see that it's working and performing as expected.

So what skills are needed?

We would like you to have at **least 3 years of working experience** with most of the following:

- Web applications, AngularJS, JavaScript, HTML5
- Java
- SQL, relational databases

- Test automation and Continuous Integration/Delivery
- Microservice and container technologies
- Spring Boot
- Kafka
- Web security and application performance
- Mobile Apps

And we won't mind at all if you also know some of these:

How to apply:

Send your motivation letter and CV in English to anette.maki@ams-aland.fi with copy to eures.nordicos@sepe.es SUBJECT: PAF NordicDAY Deadline 10/11/2017

Or visit the EURES Finland Stand in:
